INDUSTRY
Information Technology

CLIENT REQUIREMENT
Our client wanted a solution to monitor CCTV Footage in security control room.

SOLUTION OFFERED
We provided DS4000 Controller with Inputs and Output Ports. Our customized solution fulfills all the requirements for the client. Our client can now connect their workstations to our controller, run their software which in turn captures the CCTV footage from different locations and projects them on the display of 2 x 4 Setup. We have also provided software to control and monitor the layouts on the display.

OUTCOME
Our client's ability to monitor their whole sites via CCTV has improved and enhanced by using our solution. Our client is quite satisfied with our cost effective and user-friendly solution as all of the requirements are covered and functioning smoothly. Our client can now monitor all their sites on the Video Wall at their fingertips.
